

Corrigendum

Page 25, paragraph 119 should be deleted and replaced by "On home leave travel by sea, elected officials and officials in the D.1 and D.2 categories shall normally be provided with first-class accommodation and staff in grades below with cabin class accommodation or their respective equivalents. However the total cost of the journey should not exceed the cost of a journey by air, first-class for elected officials and officials in the D.1 and D.2 categories, or travel by economy class (excursion fare when applicable) for staff in grades below D.1."

This change was rendered necessary by the latest information just supplied by the International Telecommunication Union amending the previous one supplied by their Personnel Department in March 1972.
